

Azbil North America, Inc.

May 26, 2010

Azbil North America, Inc. (formerly Yamatake America, Inc.) is pleased to announce the appointment of PSI Controls Div. of Piping Specialties as our local Representative for the six New England States.

Together, Azbil North America and PSI Controls can offer innovative flow solutions including the MagneW Two-wire PLUS loop-powered electromagnetic flowmeter. This product can drastically reduced installation costs and help solve difficult flow measurement problems. For pressure measurement needs we offer the AT9000 Advanced Pressure Transmitter providing users with the performance they want at a price they can afford.

As a result of a former partnering with Honeywell we offer all of our Field Measurement Products with DE protocol along with HART Protocol.

We welcome PSI Controls to the Azbil North America sales network. With 35 years of experience serving the instrumentation needs of their customers they will be a valued addition.

Please welcome PSI Controls to our team and allow us to continue to support your instrumentation needs with innovative flow solutions.

Sincerely,

Bob Harvey
Director of Marketing
